

# Resource Database for Staff Working in Sexual Health and Blood-borne Viruses (BBVs)

**Purpose:** This document provides an overview of the available resources for staff working in the sexual health and blood-borne viruses space in WA. The document can be more quickly navigated by using the below links. Resources are organised by:

- [Community Education – Social Marketing Campaigns](#)
- [Community Education – Resources](#)
- [Workforce Development – Resources](#)
- [Workforce Development – Training](#)
- [Prevention Health Hardware](#)
- [Testing Services and Online Partner Notification](#)
- [Grant Programs](#)
- [Surveillance, Reporting and Research](#)
- [Strategy and Policy Documents](#)
- [Other Information](#)
- [Sexual Health and BBV Services in WA](#)

This document was designed to be an electronic document for ease of linking to external pages. If you are wanting hard copy resources these can be ordered through the [Department of Health Quick Mail](#) ordering system.

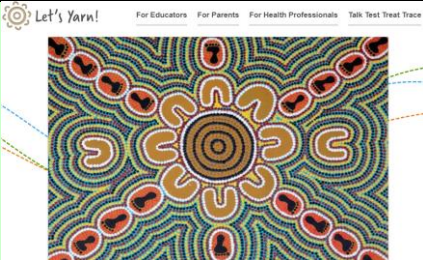

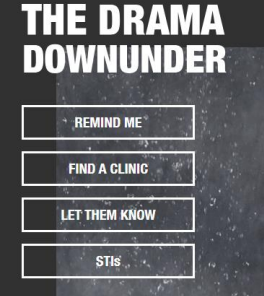

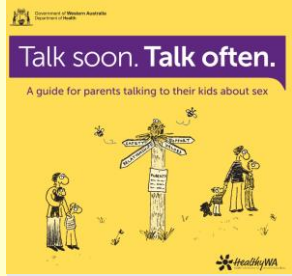

## Community Education - Social Marketing Campaigns

Title	Description	Resources
<a href="#">Beforeplay</a>	A national campaign that has been launched by the Australian Government Department of Health and Aged Care to increase awareness among young people of the ways they can prevent sexually transmissible infections (STIs), with a focus on testing and safe sex behaviours.	
<a href="#">HealthySexual</a>	Healthy Sexual is the WA Department of Health's (WA DoH) overarching sexual health campaign to raise awareness about sexual health and the things people can do to prevent, test, treat and talk to minimise the personal and social impact of STIs. <a href="#">Young Deadly Free</a>	This website provides a range of resources about STIs and BBVs affecting young people in Aboriginal and Torres Strait Islander Communities.	

## Workforce Development – Resources

Title	Description
<a href="#">Growing and Developing Healthy Relationships (GDHR)</a>	A WA DoH long-standing, widely used online education resource designed to support Western Australian schools, teachers and other education and health professionals to deliver strengths-based comprehensive relationships and sexuality education (RSE).
<a href="#">Australian Indigenous Health InfoNet</a>	The Australian Indigenous HealthInfoNet has provides support to those working in the Aboriginal and Torres Strait Islander health sector by making research and other knowledge readily accessible. Sexual health and blood-borne virus resources can be access through <a href="#">this link</a> .

<a href="#">Your Cultural Lens</a>	An online training resource in cross-cultural communication for sexual health and blood-borne viruses
<a href="#">Talk Test Treat Trace Manual</a>	A comprehensive tool to guide the prevention, early detection and treatment of sexually transmissible infections (STIs) and blood-borne viruses (BBVs). It has been developed to support health professionals to plan, deliver, monitor and evaluate STI and BBV programs.
<a href="#">Australasian Contact Tracing Guidelines</a>	These guidelines provide practical support and guidance to health care providers to conduct contact tracing.
<a href="#">Guide to having 'Healthy Conversations'</a>	This video resource outlines ways to broach issues of sexual health and blood-borne viruses with Aboriginal clients in culturally safe way.
<a href="#">Australian STI Management Guidelines</a>	The national STI and BBV management guidelines. This resource provides guidance on testing, treatment and public health management of STIs and BBVs in Australia.
<a href="#">U=U : Guidance for Healthcare Professionals</a>	This ASHM resource draws on the latest evidence to inform healthcare providers about Undetectable = Untransmissible (U=U) and provides recommendations for speaking about U=U to all patients, including those newly diagnosed with HIV.
<a href="#">Talking with Aboriginal and Torres Strait Islander LGBTQA+ Young People about Sexuality and Gender – For clinicians, health workers and support workers.</a>	The purpose of this resource is to provide health and support workers tips on how to talk about sexual and gender diversity with Aboriginal and Torres Strait Islander adolescents and young adults.
<a href="#">Communicable Disease Network Australia (CDNA) Series of National Guidelines</a>	These guidelines provide advice and guidance on responding to notifiable diseases for Public Health Units.
<a href="#">Understanding 'Reasonable Precautions' Fact sheet</a>	This fact sheet provides general information and guidance for the public on understanding 'reasonable precautions' to prevent the spread of the following notifiable sexually transmitted infections (STIs) and blood-borne viruses (BBVs).
<a href="#">National HIV, HBV and HCV Testing Portal</a>	The ASHM Testing Policies are for health professionals ordering HIV, hepatitis C and hepatitis B tests and receiving, interpreting and delivering results to patients. They set out a framework for providing quality testing and removing real and perceived barriers to testing.
<a href="#">Quick Guide to Testing and Treating the Syphilis Infection</a>	This WA Department of Health resource provides key information for health professionals regarding syphilis testing and treatment. Quickmail reference number SHP-013684.
<a href="#">Syphilis Treatment Video</a>	A video resource demonstrating how to administer treatment for syphilis using benzathine penicillin.
<a href="#">King Edward Memorial Hospital – Syphilis in Pregnancy guidelines</a>	Clinical guidelines that provide guidance on the testing and management of syphilis during pregnancy.

<a href="#">Silver Book</a>	The WA Department of Health STI and BBV management guidelines. This resource provides guidance on testing, treatment and public health management of STIs and BBVs in WA.
<a href="#">Quick guide for opportunistic STI testing for people with no symptoms</a>	Key information for health professionals for offering STI testing to clients. Quickmail reference number SHP-011948.
Endemic Regions Orientation Manual	This Orientation Manual focuses on issues related to sexual health and clinical practice in the Pilbara, Goldfields, Midwest and Kimberley. Quickmail reference number: SHP-013067
<a href="#">HIV Self-testing Factsheet</a>  Health Equity Matters	A single page fact sheet covering information on how to obtain and administer an at Atomox HIV self-test kit, plus what to do if the result is positive for HIV.
<a href="#">Contact Tracing in Regional and Remote Areas</a>	A video resource developed by the WA Department of Health to provide advice on undertaking contact tracing in regional and remote areas. This video resource showcases how contact tracing is undertaken at a WA Aboriginal Community Controlled Health Organisation.
<a href="#">Quick Guide to STI Management</a>	This resource provides information on the treatment, contact tracing and other information regarding the management of STIs and BBVs. Quickmail reference number: SHP-011947
<a href="#">Structured Administration Supply Arrangements (SASA)</a>	A SASA is a written direction that authorises a health practitioner to administer or supply a medicine to any patient meeting the specified circumstances. There is a SASA that authorises Registered Nurses and Aboriginal Health Practitioners working in a public health program to administer antibiotics, for the treatment of STIs including syphilis.
<a href="#">Prescribing PrEP in WA – ASHM resource</a>	This 2-page Decision Making in PrEP: Prescribing Pathway for PrEP in WA tool summarises the key eligibility and recommended assessment criteria for primary care providers in WA who wish to prescribe PrEP, as well as outlining ongoing patient education and monitoring requirements.
S100 Prescribers	WA HIV s100 community prescribers: <a href="https://ww2.health.wa.gov.au/Articles/F_I/Information-for-pharmacists-HIV-s100-community-prescribers">https://ww2.health.wa.gov.au/Articles/F_I/Information-for-pharmacists-HIV-s100-community-prescribers</a> ASHM HIV Prescriber Program: <a href="https://www.ashm.org.au/hiv/hiv-prescriber-programs/">https://www.ashm.org.au/hiv/hiv-prescriber-programs/</a> ASHM HBV Prescriber Program: <a href="https://www.ashm.org.au/hbv/hbv-prescriber-programs/">https://www.ashm.org.au/hbv/hbv-prescriber-programs/</a>
<a href="#">Australian Sexually Transmitted Infection &amp; HIV Testing Guidelines 2019 for Asymptomatic Men who Have Sex with Men</a>	A two-page document from NSW that highlights the guidelines and procedures for STI and BBV testing for asymptomatic men who have sex with men. It also details barriers to testing amongst asymptomatic MSM, an introduction to PrEP, when testing is not recommended, and how a self-collected anal swab may be performed.

## Workforce Development - Trainings

People working within Western Australia (WA) are eligible to apply for a training bursary which supports staff to attend sexual health and/or blood-borne virus-related workforce education and training. Applications can be found [here](#).

Title	Description	Face to face	Online
<a href="#">Curtin University Relationships and Sexuality Education (RSE) Project</a>	A WA Department of Health funded project supporting WA schools to deliver comprehensive and evidence-based relationships and sexuality education.	<input checked="" type="checkbox"/>	<input type="checkbox"/>
Sexual health teams workshops	Contact the SHBBVP at <a href="mailto:shbbvp@health.wa.gov.au">shbbvp@health.wa.gov.au</a> to find out when the next workshop is scheduled.	<input checked="" type="checkbox"/>	<input type="checkbox"/>
NSP coordinator training (annual face-to-face)	Email the NSP program to find out when the next face-to-face NSP coordinator training is: <a href="mailto:NSP@health.wa.gov.au">NSP@health.wa.gov.au</a>	<input checked="" type="checkbox"/>	<input type="checkbox"/>
<a href="#">STI and BBV Quarterly Forums</a>	Each quarter the Sexual Health and Blood-borne Virus Program facilitates a forum on STIs and BBVs to provide updates, professional development and networking opportunities.	<input checked="" type="checkbox"/>	<input checked="" type="checkbox"/>
<a href="#">Syphilis Videoconference Series</a>	A range of 30 minutes to 1 hour videos to upskill the WA workforce regarding syphilis.	<input type="checkbox"/>	<input checked="" type="checkbox"/>
<a href="#">Mooditj Program</a>	SHQ's Mooditj program for young Aboriginal people aged 10-14 years is very popular and highly regarded. Nuts & Bolts of Sexual Health	<a href="#">Community Education - Sexual Health Quarters (shq.org.au)</a>	<input checked="" type="checkbox"/>	<input type="checkbox"/>
STARS Training	<a href="#">Community Education - Sexual Health Quarters (shq.org.au)</a>	<input checked="" type="checkbox"/>	<input type="checkbox"/>

## Prevention Health Hardware

Title	Description
<a href="#">Condom Dispensers Program</a>	This program provides services with condom dispensers free of charge. These dispensers can be wall mounted in services to enable the provision of free safer sex hardware to communities across WA. For a map of where people can access free condoms follow <a href="#">this link</a> .
<a href="#">Condom Access Program</a>	WAAC provides free (funded by the Department of Health) safer sex equipment to organisations throughout Western Australia. These are intended to be distributed to priority populations within Western Australia.  These packs contain one regular condom and one sachet of lubricant in a package that contains health promotion messaging about condom use and safer sex.
<a href="#">Needle and Syringe Programs (NSP)</a>	Free sterile injecting equipment is available through Needle and Syringe Program sites. A map for the location of these can be accessed through <a href="#">this link</a> .

## Testing Services and Online Partner Notification

Title	Description
<a href="#">Better to Know</a>	Better to know is a website with resources to assist partner notification. The website allows people to anonymously text or email their sexual contacts encouraging them to get tested.
Online STI Testing ( <a href="#">HealthySexual</a> and <a href="#">Get the Facts</a> )	An online tool that allows people to print of a pathology request form for a genital chlamydia and gonorrhoea test.
<a href="#">Let them Know</a>	Let Them Know is a free notification service for people who have been diagnosed with an STI to easily let their sexual partners know they might be at risk.

## Grant Programs

Title	Description
<a href="#">School RSE grants</a>	WA Department of Health offer a small grants program for WA schools to support their relationships and sexuality education programs.
WA Sexual Health Week Grants	Contact WAAC at <a href="mailto:hello@waac.com.au">hello@waac.com.au</a> or phone 9482 0000
<a href="#">World AIDS Day Grants</a>	WAAC facilitate small community grants to assist the delivery of projects and/or events that align with the World AIDS Day. The grant program aims to provide financial assistance of up to \$1000 to regional organisations, to support the WA community to address sexual health and blood-borne virus issues through community engagement and collaborative partnerships.
<a href="#">Healthway Grants</a>	Healthway offers grants for local community initiatives, programs, research, and partnerships to build a healthier WA.
<a href="#">Bursaries</a>	The Department of Health offers a range of scholarships and bursaries for staff working in sexual health and BBVs.

## Surveillance, Reporting and Research

Title	Description
<a href="#">Health Infonet</a>	A website that provides different types of resources regarding the health of Australia's Aboriginal and Torres Strait Islander people to assist in 'closing the gap' by facilitating the sharing and exchange of relevant, high-quality knowledge. Various population groups, health topics, health determinants and more are featured.
<a href="#">WA Notifiable Infectious Disease Dashboard</a>	A dashboard that provides real time STI and BBV epidemiology in WA. Data is sourced from the WA Notifiable Infectious Diseases Database (WANIDD) maintained by the Communicable Disease Control Directorate, Public and Aboriginal Health Division, Department of Health WA.
Notification Forms	The WA Department of Health has a number of notification and enhanced surveillance forms that can found using these links: <a href="https://ww2.health.wa.gov.au/Silver-book/STI-or-HIV-notification">https://ww2.health.wa.gov.au/Silver-book/STI-or-HIV-notification</a> <a href="https://redcap.link/gonoesf">https://redcap.link/gonoesf</a> (Gonorrhoea) <a href="https://redcap.link/syphilisenhancedform">https://redcap.link/syphilisenhancedform</a> (Syphilis)
<a href="#">TTANGO Research</a>	STI POC testing for chlamydia, gonorrhoea and trichomonas on the Cepheid GeneXpert® is being implemented in a network of primary health services in regional and remote Australian communities.
<a href="#">WA Survey of Secondary School Students and Sexual Health 2021</a>	A survey of WA Year 10-12's outlining: knowledge about STIs/BBVs; sexual behaviours; contraception use; online experiences; and informal/formal sexual health education.
<a href="#">Parents and their support for school-based relationships and sexuality education: Western Australia snapshot report (2022)</a>	This project aimed to contribute to the current evidence base regarding the delivery of relationships and sexuality education (RSE) within schools. Specifically, the project sought to examine the attitudes of a national sample of parents (or other adults) with caring responsibilities for school-aged children. A nationwide survey of Australian parents was conducted in 2021 and involved 2,427 participants across all states and territories, of which 643 were from Western Australia (WA). This report summarises the data from WA.
Social Research Reports	<ul style="list-style-type: none"> <li>• Kirby Institute: <a href="https://kirby.unsw.edu.au/">https://kirby.unsw.edu.au/</a></li> <li>• Burnet Institute: <a href="https://www.burnet.edu.au/">https://www.burnet.edu.au/</a></li> <li>• Australian Research Centre in Sex, Health and Society (ARCSHS): <a href="https://www.latrobe.edu.au/arcschs">https://www.latrobe.edu.au/arcschs</a></li> <li>• Centre for Social Research in Health: <a href="https://www.arts.unsw.edu.au/csrh">https://www.arts.unsw.edu.au/csrh</a></li> </ul>
<a href="#">Working with Indigenous Populations on Sexual Health and Blood Borne Viruses: an Evidence Review from Australia, Aotearoa/New Zealand and Canada.</a>	This report provides checklists and summaries on the six domains for health workers when working priority populations within the Aboriginal community in order to reduce the increased rates of STIs and BBVs. These procedures were developed after a literature review from Australia, Canada, and New Zealand.
<a href="#">GOANNA Study 2</a>	Australia-wide sexual health survey of young Aboriginal and Torres Strait Islander people
<a href="#">Breaking the Silence Report</a>	The 'Breaking the Silence' research project is one of the first to focus on the unique experiences of Aboriginal and/or Torres Strait Islander LGBTIQ+ people living in Western Australia
<a href="#">Walkern Katadin Report</a>	Experiences of Aboriginal LGBTQA+ young people.

<a href="#">Needle Syringe Program National Minimum Data Collection (NSP NMDC)</a>	The NSP National Minimum Data Collection (NSP NMDC) provides key data on NSP service provision to enable reporting against key NSP indicators to enable monitoring and evaluation of the impacts of Australia's National HIV and Hepatitis C Strategies, as well as reporting against WHO HCV elimination goals and UNAIDS Global AIDS Response.
<a href="#">Australian Needle and Syringe Program Survey (ANSPS)</a>	The ANSPS provides serial point prevalence estimates of HIV and HCV antibody prevalence, HCV RNA prevalence and monitors sexual and injecting behaviour among PWID in Australia.

## Strategy and Policy Documents

Title	Description
<a href="#">National STI &amp; BBV Strategies</a>	A collection of national strategy documents that address the impact of BBVs and STIs on the Australian community. This is designed to establish a coordinated response to infections and outbreaks nation-wide.
<a href="#">WA Sexual Health and BBV Strategies</a>	A collection of strategies that outline the guiding principles, goals, targets, and priority areas needed for an effective, coordinated, and comprehensive state-wide response to the impact of STIs and BBVs in WA.
<a href="#">Enhanced Response to Addressing STI (and BBV) in Indigenous Populations Action Plan</a>	This document is a response from the national government that supports the National Strategic Approach to achieve an enhanced response to the disproportionately high rates of STIs and BBVs in Aboriginal populations. It details both short-term and long-term solutions.
<a href="#">WA Syphilis Outbreak Response</a>	Provides information regarding the infectious syphilis outbreaks affecting people in Western Australia, including Response Action Plans, communiques, resources, training events, and campaigns.
<a href="#">International Technical Guidance on Sexuality Education</a>	This online book was developed to assist education, health, and other relevant authorities in the development and implementation of school-based and out-of-school comprehensive sexuality education programmes and materials.
<a href="#">NSP Guidelines and Information</a>	This needle and syringe program information website provides operational and administrative links and resources.
<a href="#">The Rural Sexual Health in Youth (RuSHY) Framework</a>	This document contains a background on the RuSHY framework, four framework concepts, and a guide on the four phases for implementation. It works to establish collaborative relationships between traditional and non-traditional sexual health provider settings to address gaps in service and education provision for young people the rural area.
<a href="#">Communicable Disease Control Guidelines</a>	Contains links to guidelines detailing generic and specific advice to assist in the prevention and control of communicable diseases.

## Other Information

Title	Description
<a href="#">My Health Record</a>	A secure online summary of key patient health information.
<a href="#">Rainbow Tick Standards</a>	A national accreditation program specifically designed for health and community organisations to demonstrate they are committed to LGBTQIA+ cultural safety. Accreditation is achieved by meeting the requirements outlined in the <a href="#">Rainbow Tick Standards</a> .
<a href="#">Richmond Well-being - Rainbow Tick Readiness</a>	Over six months, Richmond Wellbeing's Rainbow Tick Readiness Program will work with your teams to review, develop and implement a range of measures to take your organisation from LGBTQIA+ aware, to LGBTQIA+ inclusive, ensuring LGBTQIA+ clients have ready and easy access to services that meet their needs. Following this, your organisation may be eligible for accreditation of a Rainbow Tick.
<a href="#">Removing Barriers</a>	A compilation of education and training resources and modules to reduce stigma and discrimination in health care settings. The three components to the website are: Step 1, Understand the barriers; Step 2, Recognise barriers in your practice and; Step 3, Make a difference.
<a href="#">Medicare Cards for People Aged 15 and Over</a>	The government resource outlining the steps on how to apply for an individual Medicare card for those over the age of 15.

## Sexual Health Services and Contacts

For a list of other resources and contacts relating to sexual health and BBVs, please visit the Talk Test Treat Trace page on the Let's Yarn! website: <https://letsyarn.health.wa.gov.au/ttt/supporting-documents>

Title	Description
<a href="#">AHCWA</a>	The Aboriginal Health Council of Western Australia is the peak body for Aboriginal Health in WA, working to improve health outcomes for Aboriginal people and communities.
<a href="#">ASHM</a>	Provides support to the HIV, viral hepatitis and sexual health workforce.
<a href="#">HepatitisWA</a>	A community-based organisation providing services to empower those affected by and living with viral hepatitis, with the vision of eliminating viral hepatitis in Australia.
<a href="#">Peer Based Harm Reduction WA</a>	A peer-based, not for profit, community-based harm reduction organisation that represents the needs and concerns of people who use or have used drugs in WA. They provide peer-based support, information, education, advocacy, and harm reduction aimed at reducing the transmission of BBVs and STIs amongst drug-users in WA.
<a href="#">SECCA</a>	Sexuality, education, counselling, and consulting agency (SECCA) provides education, resources, and counselling for people with disability or those in their lives (such as family or support workers) on sex, sexuality, and relationships.
<a href="#">Sexual Health Quarters</a>	An independent, non-profit organisation, providing education, resources, and clinical services regarding sexual health and relationship wellbeing.
<a href="#">SiREN</a>	The Sexual Health and Blood-borne Virus Applied Research and Evaluation Network (SiREN) supports service providers, researchers, and policy-makers working in the sexual health and BBV space to engage in research and evaluation. They maintain a network of around 400 professionals working in this space.
<a href="#">WAAC</a>	A non-profit organisation that works to reduce stigma and discrimination, while improving access to health services and information to reduce the transmission of HIV.
<a href="#">Youth Educating Peers (Youth Affairs Council of WA)</a>	The Youth Educating Peers (YEP) Project aims to support and educate young people on relationships, sexual health, BBV issues. They do this by working in partnership with the WA youth sector and building the capacity of youth workers.
Regional Sexual Health Coordinators	Regional Sexual Health Coordinators are located in each of the Public Health Units. To find the contact details for your regional Public Health Unit visit:

	<a href="https://healthywa.wa.gov.au/Articles/A_E/Contact-details-for-population-public-health-units">https://healthywa.wa.gov.au/Articles/A_E/Contact-details-for-population-public-health-units</a>
Regional Needle and Syringe Program (NSP) Coordinators	Each region has a Regional NSP Coordinator. This role provides workforce development, community education, safe disposal initiatives, and is a suitable point of contact for any Needle and Syringe Program queries. Please email <a href="mailto:nsp@health.wa.gov.au">nsp@health.wa.gov.au</a> for the contact details of your local Regional NSP Coordinator.
